illy is committed to reaching its established targets for sustainability to create durable and shared value.

illy pioneered the Direct Trade model. Every single bean we harvest is 100% traceable to the source. We purchase our coffee directly from more than 800 growers, paying on average 30% more for the highest-quality Arabica beans. We possess a 100% sustainable supply chain.

We prioritize environmentally conscious practices. The **establishment of the University of Coffee**, ultra-low emission coffee roasting plants, and partnerships with universities to research sustainable coffee production. We pursue sustainability by sharing the value it generates (economic sustainability), personal growth (social sustainability) and respect for the ecosystem (environmental sustainability)

what sets us apart from other brands?

Our mission is to **delight** all those who appreciate beauty and flavor worldwide with the **best coffee nature can offer**, enhanced by the best of **technology and art**.

illy aims to be the reference standard for **coffee excellence** and culture worldwide, an **innovative company** that offers the **best products** and places to enjoy them, and thanks to this grows and becomes a **leader in high-end coffee**.

SELECTION

The choice of quality.

We select only the top 1% of perfect Arabica beans, because even one defective bean can ruin the taste of the coffee in the cup.

BLENDING

The recipe for happiness.

We create our signature blend combining the top 1% of Arabica beans from 9 distinct origins, because there can only be one greatest coffee in the world.

ROASTING

Taste in different shades.

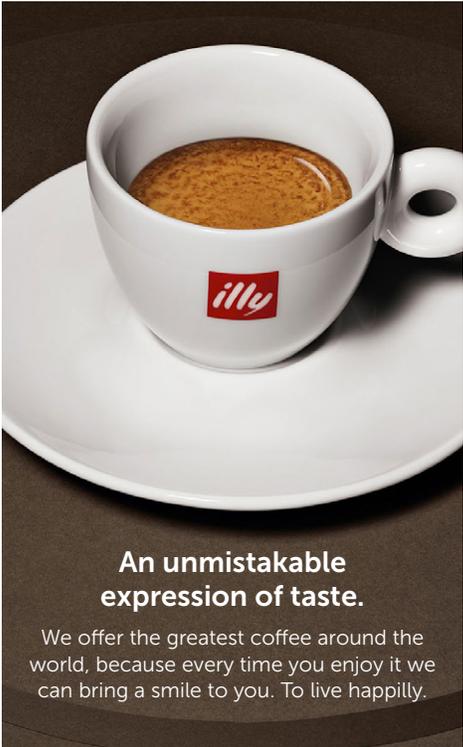

We roast our unique blend using different profiles, because even a unique taste can have different shades.

AGING & PRESSURIZATION

Long lasting aroma.

We invented our own way to protect our coffee, in order to preserve the aromas, which actually allows them to get better over time.

An unmistakable expression of taste.

We offer the greatest coffee around the world, because every time you enjoy it we can bring a smile to you. To live happily.
